

Spiral Coils

ABS and EBS

Description

Complementing our extensive portfolio of vehicle connectors, we offer complete cable assemblies that are compatible with, and feature, these connectors. These assemblies are ISO-certified for on-road use and are offered ready-to-install. By installing a pre- assembled spiral cable, our products eliminate the time, cost, and complications of terminal assembly and installation for your team.

Applications

- Available variants in cable material, connector material, and coil number and diameter, these products offer solutions for EBS and ABS connections.
