

ATO® FHA Series

32V In-Line Blade Fuse Holder

0FHA0001XP

0FHA0002XP

Description

The ATO® FHA Series 32V In-Line Blade Fuse Holder enables versatile automotive fusing thanks to wire leads that ensure simple in-line installation. The standard version is compatible with ATO® blade fuses up to 20 amps, while the heavy-duty version accepts ATO® blade fuses up to 30 amps. A heat-resistant body and tin-plated copper alloy contacts provide durability for use in automotive environments.

Smart Glow versions of the ATO® FHA Series blade fuse holder feature a natural-colored PVC housing so you can see when an installed Smart Glow fuse is blown. The Smart Glow versions also feature UL 1015 wire leads.

01500260LXN	32V Heavy-Duty In-Line Blade Fuse Holder - 30A, 12 AWG Orange GXL Leads - Packed 50	ATO	IN LINE FUSE HOLDER	30A	32V DC

Specifications

Max Current Rating:	20A, 30A
Fuse Type:	ATO®, ATO® Smart Glow
Ignition Protection:	V-0
Ignition-Proof:	UL 94
Input Terminals:	ATO® or ATO® Smart Glow Fuse Blades
Mounting Method:	In-Line Fuse Holder
Max Voltage Rating:	32V DC
Wire Description:	1015 Red Color Wires (0FHA0001HXGLO, 0FHA0001XPGL0)
Wire Size:	12 AWG (0FHA0001HXGLO, 0FHA0001XPGL0)

Applications

- Accessory Lighting (Standard-Duty)
- Panel Displays/Electronics (Standard-Duty)
- Air Conditioners / Blower Motors (Heavy-Duty)

Features and Benefits

- Accepts ATO® blade fuses (sold separately unless indicated) up to 20 amps (standard) or up to 30 amps (heavy-duty)
- Heat-resistant thermoplastic fuse holder body
- Two GXL wire leads (standard and heavy-duty), green GPT leads, or UL 1015 wire leads (Smart Glow) enable simple in-line fuse installation
- Tin-plated copper alloy contacts for corrosion resistance
