HEADLAMP PUSH PULL SWITCHES

Description

Littelfuse Push Pull Switches are designed for universal applications within harsh environments. Their mounting, body, and actuator features are designed for ease-of-use and extended product lifecycle.

The Headlamp Push Pull Series provides discrete positions for pre-determined circuit closures. The circuits and indicators within this family are designed for repeated use.

Specifications Overview

Mounting:	Hex Nut through 7/16 (11.11mm) 28 Panel Hole
Housing:	Zinc Diecast
Circuitry:	Negative Ground Only
Ingress Protection:	O-Ring in Shaft
Applications	See below for applicable part numbers

Construction Equipment

- Agricultural Equipment
- Material Handling Equipment
- Transit and Commercial Vehicles
- Marine
